

Lucas Araújo de Lima

+55 (83) 98719-6021 | lucasarlim@gmail.com | linkedin.com/in/lucasl1m | github.com/lucasl1m
João Pessoa, Paraíba, Brazil

Frontend/Mobile Developer and Computer Science graduate (UFCG), specialized in building scalable, accessible, high-performance interfaces with JavaScript, TypeScript, React, Next.js, Angular, and React Native. Experienced in financial products, from structuring new projects to modernizing large-scale critical systems. Focused on technical excellence and stability through decoupled architectures, REST API integration, automated testing, and CI/CD pipelines.

Experience

Frontend Developer · Lifters Tecnologia | Sep 2026 – Present · João Pessoa, Brazil

- Development of React and TypeScript interfaces for an iGaming platform.
- Development of an educational mobile game with Godot.
- Initial project setup, including backoffice and API structure.

Frontend Developer · Blockfy | Aug 2025 – Aug 2026 · Campina Grande, Brazil

- Developed the Harpia AI frontend, an AI agent that analyzes legal documents up to 3,000 pages, using React and Next.js with sound architecture and organization practices.
- Built Tailwind CSS interfaces, reusable standardized components, complex layouts, and strategic screens focused on performance and user experience.
- Integrated REST APIs and managed state with Context API; worked with Server Components and SSR in Next.js.
- Actively participated in code reviews, technical refinements, testing, and architecture decisions.

Frontend Developer · Beeteller | Apr 2023 – Aug 2025 · Campina Grande, Brazil

- Developed web and mobile applications with React, Angular, React Native, and Next.js.
- Built financial features in Angular that enabled Pago Parcelado to process GRUs, taxes, and judicial fees, with 300K+ transactions and R\$72M+ processed in the first 30 days of the PagTeseuro integration.
- Built and maintained a shared component library across web (React/Next.js) and mobile (React Native/Expo).
- Implemented 3DS checkout security and evolved legacy Angular systems serving 40,000+ points of sale globally.
- Integrated REST APIs, CI/CD routines, and tests with Cypress and Jest; participated in code reviews and architecture decisions.

Product Designer · Educabank | Sep 2022 – Jan 2023 · Campina Grande, Brazil

- Designed and documented the Design System and complete Style Guide for a platform serving more than 500 schools in Brazil.
- Designed high-fidelity interfaces for tuition guarantees, school cash flow, and financial dashboards, translating complex rules into intuitive journeys.
- Created a standardized Figma component library that improved engineering handoff and reduced rework.
- Validated high-fidelity prototypes for receivables anticipation features, aligning school needs and fintech growth goals.

Projects

Pago Parcelado · Angular, RxJS, i18n, Yup, Angular Material

- Enabled new government payment types (GRUs and judicial fees) through modernized Angular financial features, with 300K+ transactions and R\$72M+ processed in the first 30 days of the PagTeseuro integration.
- Integrated 3DS into checkout, strengthening authentication and reducing fraud in credit card transactions.

Harpia AI · React, Next.js, TypeScript, Context API, Tailwind CSS, i18n, Cypress, CI/CD

- Structured the frontend architecture for an AI agent that analyzes legal documents up to 3,000 pages, focused on performance and scalability.
- Implemented quality standards with Husky, ESLint, Conventional Commits, Cypress, and CI/CD pipelines.

Beeteller International · Angular, RxJS, i18n, Yup, Angular Material

- Evolved the Angular and RxJS frontend ecosystem for complex reactive flows supporting a cross-border operation with more than 40,000 points of sale globally.

Sendyu · React, Context API, Tailwind CSS, i18n, React Hook Form, Yup, Cypress, CI/CD

Education

Bachelor's Degree in Computer Science · Universidade Federal de Campina Grande | Graduated Jun 2024 · GPA 8.85

Relevant coursework: Algorithms, Data Structures, Software Engineering, Software Architecture.

Technical Skills

Languages: JavaScript, TypeScript, HTML5, CSS3

Frameworks/Libraries: React, Next.js, React Native, Angular, RxJS, Expo, Cypress, Jest, Tailwind CSS, Styled Components, i18n, Zod, Yup, React Hook Form, Design System, Testing Library, React Query, Context API

Cloud/Infra: CI/CD, GitHub Actions, Git Flow, Git

Certifications

- State Management (Redux and Zustand) | Rocketseat · Apr 2026
- Accessibility with React | Rocketseat · Apr 2026
- React Program | Rocketseat · Apr 2026
- NLW Operator – Fullstack | Rocketseat · Mar 2026
- Introduction to Real User Monitoring (RUM) | Datadog · Oct 2025
- Scrum Fundamentals Certified (SFC) | SCRUMstudy · Jun 2021
